

Bullying and Cyber Bullying Prevention

Resources for Parents/Adults, Children/Youth and Educators

Bullying: Bullying occurs when a person is exposed, repeatedly and over time, to negative actions on the part of one or more other persons, and he or she has difficulty defending himself or herself. It is aggressive behavior that involves unwanted, negative actions. It involves a pattern of behavior repeated over time. It involves an imbalance of power or strength. Cyber-Bullying: Cyber-bullying involves the use of information and communication technologies to support deliberate, repeated, and hostile behavior by an individual or group, that is intended to harm others. "Cyber-bullying" is when a child, preteen, or

teen is tormented, threatened, harassed, humiliated, embarrassed, or otherwise targeted by another child, preteen, or teen using the Internet, interactive and digital technologies, or mobile phones. It has to involve a minor on both sides or at least have been instigated by a minor against another minor. Once adults become involved, it is plain and simple cyber-harassment or cyber-stalking. Adult cyber-harassment or cyber-stalking is never called cyber-bullying.
